Resources

[Twitter](#)

Just in case you needed the link...

[Tweetdeck](#)

Probably the most popular way to actually read and send tweets. Worth taking for a spin because it lets you sort and organize the information streaming in in different ways.

[Math Tweeps](#)

This Google Doc is a growing list of Math Teachers who are on Twitter. It helps you find people. I'm trying to add peoples' websites and blogs to the list since sometimes it's nice to learn more about the people you're hearing from.

[Twitter for Newbies](#)

This Google Doc has some great tips for using Twitter as well as links to other Twitter resources and videos. Plus, there's a list of other education leaders and Twitter chats you can tune into.

[Twitter 102 Tutorial Video](#)

Especially features using "Tweetdeck" to organize your Twitter-reading.

Math Forum **Blogs**

Thoughts, ideas, links, and opportunities to discuss developing students' problem solving and communication practices.

[Elementary Mathematical Practices](#)

[Problems of the Week Blog](#) (free scenarios posted weekly)

[Suzanne at the Math Forum](#)

[The Max Ray Blog](#)

Other Math Educator Blogs

Canadian Math Teacher and Tweeter, David Wees, has organized this encyclopedic list of math education blogs.
