

## Workshop Outline

All materials used in my workshop can be found at <http://smarskies.nasa.gov/>

My workshop will be broken down into two parts:

Part 1 Fly by Math Student Problem 2. Each group will have the opportunity to set up and solve the problem using manipulatives and a calculator.

Part 2: Line Up with Math will use the Flight Simulator to solve the same type of problem. Problem 2 will be used.

Films and successful teaching methods will also be discussed.

All attendees will be given a CD with all workshop materials on it.

Any questions: My email is [William.luke@us.army.mil](mailto:William.luke@us.army.mil)

Sincerely

William Luke
