## 551 Interactive Reasoning Leading to Proof with Online Tools and Games

(3–8) Gallery Workshop

Make your classroom come alive while developing reasoning, sense making and proof. NCTM's free online games and interactive applets are perfect for you to demonstrate key content topics in your classroom and for your students to investigate mathematical conjectures on their own. We will use both physical manipulatives and online/mobile tools.

**David Barnes**

National Council of Teachers of Mathematics, Reston, Virginia

**Four Seasons 4 (Convention Center)**

# NCTM Membership

## Welcome New Members!

Whether you are just starting out or a seasoned teaching professional, we know you have concerns about connecting math to real life situations, helping children of varying needs, and more.
