1 = Must support proposed plan

2 = Must not be the primary focus of the grant

3 = Must not exceed 10% of scholarship

4 = Must be critical to the proposal or plan and may not be a major portion of the proposed budget

5 = While the grant does not fund the purchase of technology and equipment, proposals including professional development involving the use of technology and equipment to enhance student learning are encouraged.

There are places where a grant does not expressly state equipment or technology but says that “other expenses related to achieving the goals of the proposal” are permitted.
