

NCTM Regional Conference 2016

Presentation Number: 22

Title: The Effective Use of Manipulatives: Bridging the Gap from Concrete to Representational to Abstract

Presenters:

Karen Riley Jeffers ~ Email: Karen.RileyJeffer@pgcps.org Twitter handle: @K_RJeffers

Savannah Jackson ~ Savannah.Jackson@pgcps.org

Summary: Manipulatives are hands-on tools used to enhance the conceptual understanding of mathematical concepts. During this session participants will explore the effective use of manipulatives and understand how to move students through the three levels of instruction.
